## Desensitizing CD's

Check out these sites for CD's that will help you desensitize your pet to loud or other scary noises such as storms, fireworks, gunshots, crying babies, etc.

<http://www.amazon.com/Calm-Pet-Desensitizing-Sounds-Animals>

<http://www.mastersvoice-dog.com>

<http://www.gentleleadercanada.com>

<https://ahimsadogtraining.com>

<http://www.soundtherapy4pets.com> (sounds scary CD)

These will work best as part of a whole behavior modification program including training/behavior redirection, anti-anxiety/calming supplements and tools (pheromones such as D.A.P. or Feliway and "Thundershirts") or even medications if needed. Please call or email us with any questions/concerns about starting a desensitizing program with your pet.
